YOUNG HWA

The image is a composite of two aerial photographs of an industrial facility, likely a refinery or chemical plant, split diagonally from the top-left to the bottom-right. The left half shows the facility at night, with numerous lights illuminating the complex network of pipes, storage tanks, and structural steel. The right half shows the same facility during the day, highlighting the large storage tanks, a circular water reservoir, and the surrounding arid landscape under a clear blue sky.
